HERE IS WHAT WE OFFER!

REMOTE DEVELOPMENT TEAMS

We build and maintain software development teams in India. Whether you are looking to hire 1 developer or want to extend your team to 20 developers with a PM, we can help.

Get a full-time dedicated development team and significant cost reduction. Our pool of developers/designers will meet your demand in various verticals like Software, Web, Mobile, Game development & Digital Marketing

TEAM EXTENSION

Simple integration of skilled developers with your in-house team. Hire developers that will work from our office 8 hours a day, 5 days a week.

You get an offshore development team with relevant expertise while we are responsible for recruiting and HR management.

OFFSHORE IT DEVELOPMENT CENTER

Set up your offshore development center (ODC) quickly and efficiently with HNR Tech that solves all recruitment and administrative issues. We find the best-matching dedicated programmers and hire tech leads and project managers to lead your offshore/nearshore team in Mumbai, India.

HERE IS WHAT WE OFFER!

START THE R&D CENTER

To build and manage software development office in India without mediators consider our Mumbai R&D service. It allows you getting a dedicated software development team with HR managers and all administrative staff to start a core team for the R&D center.

RECRUITMENT & RELOCATION

Hire developers who will work with you on-site or offshore but will be officially employed by our company. You also retain the right to hire developers for full-time official employment in your company subsequently.

TEAM LEASING

Delegate side tasks to a trusted outsourcing partner. HNR Tech offers such managed IT services as dedicated DevOps and QA teams and offshore IT support.

MARKET CONSULTATION

Book a consultation about hiring developers, dedicated teams model, relocation services or leasing model and cost.

PRICING MODELS

FIXED PRICE

We proceed for the fixed price model when project specification, requirements for web/ mobile development processes, resources & deadlines are clearly defined, technical documentation is already available or properly planned.

RETAINER

We suggest this engagement model when project specification either has insufficient level of details or doesn't exist, development processes and deadlines are not yet clear, documentation is unavailable or incomplete.

HOURLY

We go for hourly model when only the general idea and project requirements are available. Project specification, requirements for development processes, deadlines and resources are still to be estimated, discussed and negotiated.
